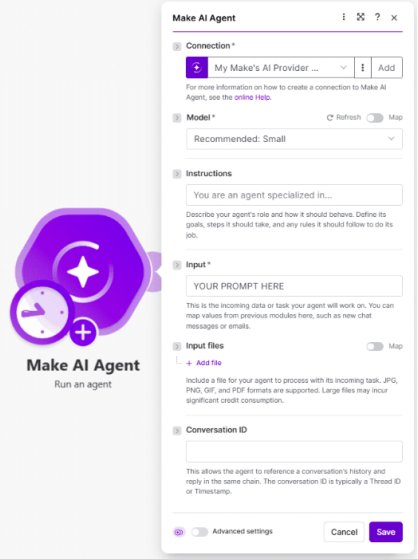
Unit 2 - Build an AI agent with Make
LEARNING CONTENT · PREREQUISITE

1.4 Run an agent



Use the **Make AI Agent> Run an agent** module to set up and run your AI agent.

In this module you can:

- Connect the AI agent to an AI provider and select the **LLM** it will use
- Write the **instructions** and **input** that tell the AI agent what to do.
- Define any **AI agent settings**

Let's have a look at each of them.
